HTS Environmental Services maintains its own fleet of trucks, vans and vacuum tankers which are operated by our staff of professional Class A certified drivers. By using our trucks and drivers, we can be assured that every waste pick up will be done in a timely and safe manor. All HTS service vehicles are fully equipped to avoid delays in the loading of your waste. We take pride that our drivers can assist you with the packaging, labeling, and manifesting of waste. All of our drivers are 40 Hour HAZWOPER and DOT HM181/126f/215A certified.

All manifests created by our Customer Service Division are tracked using Compliance Management Software.
